

RADIATION SAFETY AND NUCLEAR SECURITY AUTHORITY

QUALITY POLICY STATEMENT

Vision

To be a centre of excellence in radiation safety and nuclear security

Mission

To regulate and control all radiation sources and practices for the adequate protection of people and the environment against the harmful effects of ionising radiation

Core values

Quality, Fairness, Innovativeness, Integrity, and Confidentiality

We are committed to -

- (i) provide reliable, timely and quality services appropriate to the context within which the organisation operates and in support to its strategic direction;
- (ii) comply with the applicable requirements of the ISO 9001:2015 Standard and continually improve the effectiveness of the Quality Management System;
- (iii) adhere this policy for providing the framework for Quality Management System and quality objectives;
- (iv) focus on customer satisfaction through continual improvement of our services and continuous upgrading of skills, infrastructure and new technologies; and
- (v) foster a conducive work environment that will enable our staff to achieve our mission, vision, core values, objectives and goals.

F. A. OLLITE
